Summary:

Transystems Corporation is the design engineer for the Dauberman Road Extension improvement which will extend Dauberman Road from U.S. Route 30 south to Granart Road and includes constructing a multi-use path and two grade separated structures. This project is already in construction and has an anticipated completion date of November 2024.

During construction, a value engineering proposal was presented for an alternative which would provide cost savings to the project in a cumulative amount of \$225,765.55.

Transystems has prepared a supplement to complete their review/approval of the value engineering proposal for an amount of \$14,174.00.

Additionally, funds have been added for investigating and providing written responses to any additional contractor's request for information (RFI) during the remainder of construction on a Task Order Basis, not to exceed \$10,826.00.

Staff requests to modify the upper limit of compensation for an additional \$25,000.00 for a total compensation limit of \$760,220.00.

Staff recommends approval.
