Summary:

This Resolution authorizes a series of budget adjustments that reflect changes to the FY25 budget reflecting the acceptance of a USDA Composting and Food Waste Reduction Grant and the implementation of the work in that grant scope of work. The grant application was submitted in early September 2024, and the funding decision was announced in mid-December of 2024. The scope of work includes supplies and services to facilitate food waste separation and composting at four large food waste generating institutions in the County: the Kane County Adult Justice Center, the Northern Illinois Food Bank, catering and concessions operations at Northwest Medicine Field, and Sherman Hospital. Other elements of the program include outreach and education and the provision of finished compost as a soil amendment to small local producers and community gardens.
