2026 Committee Goals

Pursue funding to improve energy efficiency in Kane County Government-owned buildings

- Coordinate with Building Management to track projects that qualify for funding opportunities.

Increase education and improve overall recycling in Kane County buildings

- Ensure all County-owned facilities have a commercial recycling container and that janitorial staff use those containers to consolidate generated recyclables.
- Implement an educational campaign across all departments by distributing yes/no recycling posters, short videos on common recyclables encountered in the workplace, and training on how to reduce contamination.

Community outreach to educate about the CAIP

- Identify and attend five public events.
- Create at least ten social media videos disseminating events, funding opportunities, and other educational content.
- Identify and promote solar success stories in Kane County.

Notify the Kane County Board of any relevant or emerging trends

- Bring in four new guest speakers.
