* The Fund Balance Less Obligations is negative due to multi-year Traffic Signal & Light Maintenance contract which includes an additional \$3million to install LED lights

*The Fund Balance Less Obligations is a negative \$10 million for two reasons: 1) Longmeadow C-2a Soil Remediation project - The original contractor's work has been cancelled but the associated Purchase Order (P.O.) remains open with a balance of \$17 million of which the County is expected to owe only approximately \$1 million. The new contractor's Purchase Order has a balance of \$14 million. 2) Dauberman Road Extension - the construction P.O. with IDOT is \$15.5 million. The County must pay IDOT first and then request reimbursement of up to \$7.5 million in Grade Protection Crossing Funds.

Summary:

Vehicle descriptions: (2) two - 2024 Ford F-250 pickups.

Vendor: National Auto Fleet Group (Sourcewell – authorized cooperative agreement Res. # 22-266)

Purchase price – Each = \$50,359.32 / total = \$100,718.64

Normal replacement of this type of vehicle is around every 10 years. Replacement is based on age, mileage, dependability, and maintenance costs. These vehicle are from Sourcewell cooperative agreement contract # 091521-NAF. We were notified of a 3 week ordering window or shorter if the orders allowed fill up. We needed to submit a purchase order to be able to place the orders, which required an emergency purchase affidavit signed by Madom Chair. These vehicles are used in the maintenance section of Transportation. Body and equipment package will be transferred over from the old unit on one and the other will get a new utility body installed. One vehicle will replace a 2012 F-250 and the other unit is being added back on from its removal about 12 years ago. Changes in our operation require it. The old unit will be sold by the Purchasing Department for Transportation after we take delivery of the replacement unit. The vehicle being replaced meets the County replacement requirements and both are in the FY24 budget.

Staff is requesting ratification of the emergency purchase affidavit inaccordance with Kane County Purchasing requirements.

MEMORANDUM

DATE: September 5, 2023

TO: Corinne Pierog, Madam Chair
Vern Tepe, Vice Chairman

FROM: Carl Schoedel, Director of Transportation

SUBJECT: Emergency Purchase Affidavit – (2) 2024 Ford F-250s

Kane County Division of Transportation (KDOT), staff coordinated with Purchasing Director Karin Kietzman and Assistant States Attorney Steven Ford to prepare an Emergency Purchase Affidavit for the purchase of (2) 2024 Ford F-250s.

KDOT scored the current 2012 Ford F-250, which met the requirements for replacement. The other Ford F-250 will be an addition to the fleet for a fourth supervisor that is currently driving a pool vehicle meant for office staff. The purchase of these 2 new 2024 Ford F-250 will assist Maintenance Supervisors in responding to incidents in the Right-of-Way, servicing County needs, and responding to service requests in a timely manner.

The total cost of the (2) 2024 Ford F-250s is not to exceed \$100,718.64. These vehicles are included in the KDOT FY24 Budget.

Due to a shortage of inventory and FY24 orders only being accepted until September 27, 2023, the purchase of these vehicles will be through the Sourcewell Cooperative Contract # 091521-NAF from National Auto Fleet Group, 490 Auto Center Drive, Watsonville, California 95076.

Last year KDOT was able to use a Letter of Intent to secure our orders, however this year Sourcewell is requiring a Purchase Order to reserve the vehicles. Failure to place an order could result in not getting the 2 trucks in FY24 or paying more and purchasing from a dealership at a later time if available.

I request your signature on the attached Emergency Purchase Affidavit which will allow Purchasing Director Kietzman to issue a Purchase Order that will reserve these trucks. KDOT staff would then add this item to the Transportation Committee agenda for ratification at the next regularly scheduled meeting on September 19, 2023 and the item would flow through the normal committee and board approval process.

COUNTY OF KANE

EMERGENCY PURCHASE AFFIDAVIT

Kane County Code Chapter 2, Article VI, Division 3, Section 2-217 (A) states that "an emergency purchase equaling or exceeding \$30,000 may be authorized ... in certain situations ... where immediate repairs are required to County property to protect or prevent against further loss or damage, where immediate action is required to prevent or minimize disruption to County Services ..." and "An emergency purchase shall be limited to those materials, supplies, equipment, services, construction and construction related services necessary to satisfy the emergency and these purchases shall be made with such competitive evaluation as is practicable under the circumstances."

Kane County Code Chapter 2, Article VI, Division 3, Section 2-217 (B) further states that "A department seeking an emergency purchase shall prepare an emergency affidavit documenting both the existence of an emergency condition and the nature of the emergency. The department head shall sign the affidavit and submit to the county board chairman the emergency affidavit requesting authorization to make the emergency purchase."

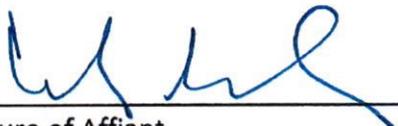

Whereas the Division of Transportation has requested and received emergency purchase authorization from the Kane County Board Chairman, pursuant to Kane County Code Chapter 2, Article VI, Division 3, Section 2-217 (A) for purchase of 2 (two) 2024 Ford Super Duty F-250 SRW (F2B) XL trucks in an amount of \$50,359.32 each and not to exceed \$100,718.64 from budgeted Division of Transportation fund line items. Due to a shortage of inventory and orders only being accepted until September 27, 2023 the purchase of these vehicles will be through the Sourcwell Cooperative Contract # 091521-NAF from National Auto Fleet Group, 490 Auto Center Drive, Watsonville, California 95076.

Whereas the Division of Transportation had the current 2012 Ford F250 scored, which indicated replacing the vehicle. The vehicle replacement and additional vehicle were budgeted in the Division of Transportation FY24 budget; and

Whereas, it is in the best interest of the County to immediately purchase these 2 new 2024 Ford F-250 trucks to address the needed replacement of the current 2012 Ford F-250 and the addition of the new truck into Kane County Division of Transportation fleet for staff to respond to emergencies in the Right-of-Way, service County Assets and to respond to service requests in a timely manner;

Now therefore I, Carl Schoedel, being duly sworn solemnly affirm that I am the Director of the Kane County Division of Transportation and hereby request authorization to purchase two 2024 Ford F-250 trucks from the National Auto Fleet Group, 490 Auto Center Drive, Watsonville, California 95076 for a not to exceed \$100,718.64 from budgeted Division of Transportation fund line items. I understand that this emergency procurement must be ratified by the County Board at the next regularly scheduled Transportation Committee, Administration Committee then Executive Committee and County Board meetings.

This affidavit is made pursuant to and in fulfillment of the emergency purchase affidavit provisions in the Kane County Purchasing Ordinance. I know and understand the contents of this affidavit and all statements herein are true and correct.

KANE COUNTY UPDATES

2023 Updated KDOT Bicycle and Pedestrian Plan

The [2023 Kane County Bicycle and Pedestrian Plan](#) has been adopted by the Kane County Board. Kane County's previous plan was adopted in April 2012. Since then, the County has experienced demographic changes, along with shifting infrastructure needs, notably the record nationwide increase in bicycle and pedestrian fatalities. Major components of the plan include updating the County's design guidelines and best practices pertaining to bicycle and pedestrian facilities. Guidelines for accommodation in urban, suburban, and rural contexts helps ensure the plan serves all residents and visitors of Kane County and assists municipalities and partners with their planning efforts. Kane County is also using the plan to pursue grants and implement projects on the Kane County highway system, and work to connect to networks maintained by municipalities and other agency partners. Read more about the Kane County Bicycle and Pedestrian Plan by clicking [here](#).

New Kane & Kendall County Bicycle and Pedestrian Web App

KDOT Staff has updated the [Bicycle and Pedestrian Web App](#) with new data from the Bicycle and Pedestrian Plan. The app was first launched in November 2018 and has had several updates over the years. Through this web app, individuals have access to interactive web maps of local and regional trails, bike facilities, bike shops, trail surfaces, and levels of traffic stress, which measures how stressful a roadway's traffic is to bicyclists or pedestrians.

Kane County Bicycle, Highway, and Transit Maps

Kane County produces the [Kane County & Northern Kendall County Bicycle Map](#), which includes existing local and regional trails and the [Kane County Highway Map](#). You can request to mail or pick up the Bicycle and Highway Maps by filling out the form [here](#).

CMAP NEWS

No Small PART: Recommendations Coming Soon in Plan of Action to Address Regional Transit

Big, bold solutions are needed to secure the financial viability of northeastern Illinois' transit system. Our region's transit agencies — the Chicago Transit Authority, Pace, and Metra — face a budget shortfall of \$730 million in 2026 when federal assistance expires. Without action, train and bus service could be drastically reduced.

The state tasked CMAP with developing legislative recommendations that envision a stronger and more financially secure transit system. The [Plan of Action for Regional Transit \(PART\)](#) is in its final stages of development. The PART report will leverage findings and input from the RTA and its [Transit is the Answer](#) strategic plan, as well as [CMAP's Mobility Recovery project](#). Several recommendations for system improvements and funding approaches are available on the PART page, and additional recommendations will be posted throughout the summer.

On Wednesday, September 6, the [PART Steering Committee](#) meets. Final recommendations will go to the CMAP Board and the Metropolitan Planning Organization Policy Committee, which will meet on Wednesday, September 13. Approval of the report is set for October. The report must be submitted to the Illinois General Assembly and the governor's office by January 1, 2024.

Community Alliance for Regional Equity (CARE)

CMAP is accepting applicants for the second [CARE](#) cohort, which will launch in January and run through December 2024. CARE is a group of community-based organizations that will work with CMAP to make their investment processes more equitable and strengthen community collaboration. They are seeking community-based organizations that are traditionally marginalized or excluded in the transportation planning process, to

compensate them for their time and expertise, each member organization will receive a \$10,000 honorarium. [Applications](#) are due by **September 19, 2023**.

New CMAP Data Hub

CMAP is excited to announce the launch of the redesigned [Data Hub](#). The Data Hub provides vetted and trustworthy information about northeastern Illinois so local governments, community organizations, academic researchers, businesses, and more can learn and make informed decisions about their communities. The new Data Hub allows you to search or browse by categories and tags. You can find tables or shapefiles for transit routes and stops, greenhouse gas emissions, economically disconnected and disinvested areas, bikeway inventory system, and more.

Improving Accessibility in the Region

CMAP has launched a program to help communities in northeastern Illinois improve accessibility for their residents and visitors with disabilities. This [CMAP webpage](#) provides communities and partners with essential information about improving accessibility and complying with the Americans with Disabilities Act. Sign-up to receive the Accessible Communities newsletter by updating your subscriber preferences [here](#). CMAP also hosted a series of free ADA trainings, which covered ADA and Title II requirements, completing a self-evaluation, the role of an ADA coordinator, and developing a transition plan. Training slides and recordings are available on the [CMAP website](#). Additional workshops are scheduled for fall 2023 and registration is open. These trainings will cover the ADA and Title II and Illinois Accessibility Code training, ADA coordinator training, ADA self-evaluation and design standards, and ADA transition plans.

Monthly Report September 19, 2023

Construction Highlights

- Bliss/Fabyan/Main Realignment and Roundabout – The contractor is busy with new pavement, drainage, grading and landscape aspects of the project. This project is a realignment of the offset intersections into a 4-legged oval-shaped roundabout with substantial completion scheduled for late 2023.
- Dauberman Road Extension – Work is progressing well as the contractor works on the new roadway extension of Dauberman from US 30 to Granart Road. Crews are preparing the new road subbase, installing MSE walls for the bridge abutments, US 30 staged widening and installing storm sewer. Dauberman Road between Scott Road and US 30 remains closed until late September to allow crews safer access to the site. This project is a proposed new roadway extension from US 30 south to Granart Road with a new grade separated crossing over US 30 and the BNSF Railroad to improve safety, access, and system continuity. Anticipated completion is late 2024.
- Longmeadow Parkway (Section C-2A) – The scope of the project is to treat on-site, remove and dispose of lead & diesel fuel contaminated soil between Sandbloom/Williams Road and the Bolz Road Connector. The contractor continues with their daily mixing, testing and removal process, averaging 60 loads of treated material to Winnebago per day, usually five days a week. Staff continues to work with the contractor to maintain a steady work flow. Anticipated completion is May 2024.
- Longmeadow Parkway (Section C-4) Gantries and Roadside Toll Building – The Building is functional with a minor compliance test outstanding. This test is not path critical and will be completed when personnel are available.
- Orchard Road at US 30 Intersection Reconstruction – Electrical Contractor is waiting for small electrical parts for the uncompleted new traffic signals, so work on the project is now idle. Ride issues are still being addressed as we wait for IDOT's input on the issue. The contractor will not receive any compensation for the remedial work done as requested by KDOT to improve the ride, which we estimate to have cost approximately \$100,000.
- Countryside Road at Orchard Road Intersection Improvement - This project will add west bound left and right turn lanes to Countryside Road at Orchard Road to improve access to residents in the subdivision. Crews continue work with widening intersection to accommodate the new westbound left and right turn lanes. Completion is anticipated by end of September 2023.
- 2023 Annual County Pavement Resurfacing - Night paving work at Fabyan Parkway at Randall Road and on Randall Road from Keslinger Road to Main Street Road is going well. The milling operation is approaching Fabyan Parkway, heading north from Main Street Road, and will continue in the following weeks. Paving will begin shortly at Randall Road at Main Street Road, moving north. Completion is anticipated for late October 2023, weather permitting.
- Pavement Preservation – Contract is substantially complete with final quantities and punch list work remaining.

- Montgomery Road at Virgil Gilman Trail – Work begins the week of September 4th. Improvements include installation of new rectangular rapid-flashing beacons with pedestrian push buttons and realigning the trail crossing to a 90-degree angle. Other improvements include a relocated parking lot, curb installation, advance pavement markings, new signage and landscape restoration. The anticipated completion date for the project is September 30, 2023, weather permitting.
- Orchard Rd patching and signs - This project involves pavement repairs and other miscellaneous work related to maintenance on Orchard Road from Indian Trail Road to Prairie Road. Completion is anticipated at the end of the September/early November, weather permitting.

Design Highlights (construction letting dates dependent upon completion of land acquisition)

- Bunker Road Extension – Keslinger Road to LaFox Road – PE II and ROW are ongoing to extend Bunker Road from its current northern terminus at the LaFox Metra station, to LaFox Road north of the LaFox Village District Center. The project was included in the County’s adopted long-range transportation plans since 2004, and identified in the late 1990’s as an improvement that could reduce congestion and provide a better north/south connection in the central portion of the County. The proposed extension incorporates the existing underpass of the UP RR tracks constructed as part of the Metra West Line extension in 2006 to accommodate the Bunker Road extension and a roundabout at the intersection of Bunker and Keslinger Roads.
- Dauberman Road/Meredith Road Realignment – P1 work is underway to determine the optimal realignment to connect Dauberman Road to Meredith Road.
- Fabyan Parkway at IL 31 Intersection Improvement – The Planning & Environmental Linkage (PEL) Study was approved by IDOT. PE I to start soon.
- Kirk Road over UP RR, Metra & Tyler Creek – The existing 18-span bridge will be replaced with two single span bridges over the Union Pacific Railroad and Reed Road, with the remaining spans filled and supported with retaining walls. PE II and ROW continue for this bridge replacement and roadway reconstruction/add lanes along Kirk Road between Cherry Lane and IL 38.
- Longmeadow Parkway Bridge Corridor – New alignment and new bridge over the Fox River
 - Tree Growing Contract – plan preparation is nearly complete - targeting construction letting in late 2023
 - LMP C-2B – New contract to finish roadway paving & miscellaneous items – targeting construction letting in winter 2023/2024 with work occurring during 2024.
 - Roadside Toll Collection System Integrator, Back Office System Operator and Debt Collection and Administrative Hearing Officer Services – Toll Collection Services development is wrapping up and then will go into hibernation; all other services are already in hibernation.
- Randall Road at IL 72 Intersection Reconstruction – PE 2 is underway to improve intersection capacity, pedestrian movements and safety. Randall Road at IL 72 exhibits some of the highest traffic volumes in Kane County. Design Approval received in January 2023.
- Randall Road at Big Timber Road Intersection Reconstruction – PE 2 is underway to improve intersection capacity, pedestrian movements and safety. Design Approval received in January 2023.

- Randall Road at US 20 Planning & Env Linkage (PEL) Study – A PEL study was conducted for the interchange and its surrounding intersections. The key elements of the study were to address increased traffic volumes, access demand and competing jurisdictional interests within the compressed footprint. The PEL Study was completed spring 2022.
- Randall Road over I-90 Interchange – A PEL study was conducted for the Randall Road corridor between Big Timber Road and IL 72, centered on the I-90 (the Jane Addams Tollway) interchange. This section of Randall Road is one of the most heavily traveled county highways in Kane County. Randall Road serves multiple critical uses:
 - The region’s sole north-south arterial
 - A critical link to I-90 and the Chicago metropolitan area
 - A generator of commercial and industrial development

The PEL study was completed in fall 2021 resulting in a report providing several feasible alternatives for further design consideration available on the project website. PE I is underway. Five alternatives are being examined. In May, virtual and in-person public meetings were held. Public comments were received and compiled.

- Randall Road at Hopps Road – PE I is underway for the proposed reconstruction of the intersection. The primary objective of this project is to build upon other ongoing safety and capacity improvements along Randall Road, to evaluate long-range safety and capacity improvement needs and to connect the multi-use path that exists along the west side of Randall Road to the north and south. While the goal of the Phase I study is to explore different alternatives and is anticipated to include a slight realignment of Randall Road to the west, and a realignment of Hopps Road to address safety concerns with the existing intersection angle and to correct the reverse curve superelevation transition that exists within the intersection. Design Approval received March 2023. Phase II Engineering Services will begin soon.
- Randall Road Multi-Modal Improvements - Two concurrent preliminary engineering PE I studies are underway to provide multi-modal improvements along the Randall Road Corridor, from College Green Drive to the northern County line, approximately 9.4 miles. The goal of this project is to create an accessible thoroughfare for all modes of transportation to travel safely along Randall Road. Improvements may consist of off-road shared use paths, sidewalks, pedestrian structures and/or intersection crossing improvements as needed to provide full corridor connectivity along Randall Road. The PE I studies include the necessary engineering and environmental services to identify the required improvements, the environmental impacts and required mitigation measures, permits, land acquisition requirements and probable cost. Two public meetings are scheduled: South Corridor on Thursday, Sept. 14th from 5-7 at ECC and North Corridor on Wednesday, Sept. 20th from 5-7 at Randall Oaks Rec Center. See project website for further details.

- Randall Road at Highland Avenue Intersection Improvement - This project includes PE I for Randall Road at Highland Avenue with limits extending from Foothill Road on the south to Fletcher Drive on the north. The project is anticipated to include reconstruction of Randall Road to include 3 travel lanes in each direction separated by a barrier-curbed median and intersection improvements at Fletcher Drive, Royal Boulevard, Highland Avenue, Brookside/Tall Oaks Drive and Win Haven Drive. The existing cross section for Randall Road includes shoulders and generally an open drainage system, which is anticipated to be converted to an urban cross section with curb and gutter and a closed drainage system. A separate off-road bike path will also be considered along the west side of Randall Road, with potential pedestrian accommodations along the north side of Highland Avenue.
 - Various Engineering Projects – There are dozens of active projects in various stages of engineering, land acquisition or construction. Please contact our office if you have a question on the status of a specific project or visit <http://kdot.countyofkane.org/pages/projects/highway-projects.aspx>

Summary:

As with any roadway or bridge improvement, design alternatives are considered to avoid and minimize impacts to adjacent existing wetlands. If wetland impacts are unavoidable, a permit from the United States Army Corps of Engineers (USACE) is required and wetland mitigation is necessary. For the Bunker Road Extension project, the wetland impacted by the project must be mitigated and the USACE has required jurisdictional mitigation credits at a ratio of 1.5:1 for this project as follows:

- 1.367 acres of impact at a 1.5:1 mitigation ratio = 2.05 wetland credits (acres)

A total of 2.05 credits (or acres) must be purchased at a price of \$170,000 per acre to mitigate for the 1.367 acres of wetlands that are impacted by this project. The Gray Willows Mitigation Bank is building a waitlist for projects for when they will have credits that will become available for purchase later this fall. Staff recommends approval of an agreement and appropriation request in the amount of \$348,500.00 in order to purchase the necessary wetland mitigation credits.

Staff recommends approval.

Assistance to the Campton Township Highway District for 2023 Resurfacing Improvements

For Information Only

While the Campton Township Highway District was actively completing this year's resurfacing contract, valued at \$428,620.55, the Township Highway Commissioner discovered that there were inadequate quantities available in the contract in order to finish resurfacing all of their roads that had already been ground down by the contractor. The estimated cost of the addition quantities needed to finish resurfacing all of the roads that have already been ground down is \$100,000 (a 23% increase to the value of the contract). The Township Highway Commissioner doesn't have adequate funding available this year to pay for this 23% increase to the contract. Since the roads have already been ground down, it is important that these roads get resurfaced for the safety of the motoring public and to provide a solid and durable surface for the long term.

The Illinois Highway Code states that the duties of the County Engineer, amongst other things, are to (paraphrasing):

- advise the highway commissioners of the road districts, upon request, as to the best methods of construction, repair, or maintenance of district roads; and
- assist the Township Road Districts, upon request, to prepare plans, specifications and estimates of cost needed in order to complete the construction of any district road.

As such, KDOT staff annually assists most of the Township Road Districts by preparing their resurfacing contracts, including Campton Township Road District. KDOT staff also routinely provides engineering advice to the Township Road Districts.

KDOT considered various alternatives so as to how best to assist the Township Highway Commissioner to finish resurfacing these public roads before winter arrives. Staff negotiated with the County's 2023 resurfacing general contractor to resurface the Township's remaining road segments at a cost of approximately \$75,000 to \$90,000 since the unit price for the asphalt pay items is less in the County's resurfacing contract. Within the County's existing \$9,800,000 resurfacing contract is an "Items as Ordered by Engineer" pay item (for contingencies) of \$300,000 with an available balance that can absorb this extra cost. The County's contractor is willing to do this work and by using the contingency pay item, no additional appropriation request is necessary in order to complete this work for the overall public benefit.

The Township Highway Commissioner has agreed to payback KDOT over the next several years for KDOT's financial assistance to complete their resurfacing this year. This is for information only.

Proposed Corporate Headquarters Expansion Project

Kirk Road at Douglas Road Intersection Reconstruction

Agreement Concept Discussion Only

KDOT has initiated coordination with a proposed development expansion project for the corporate headquarters of a business located at the Kirk Road at Douglas Road intersection named “Project Bluegill”.

Project Bluegill includes a new approximately 56,000 sq. ft. 2 story building with basement on property currently owned by Project Bluegill’s private sponsor at their corporate headquarters in Batavia. The total investment will be at least \$30M along with the creation of at least 50 new jobs. This corporate headquarters expansion is necessary to accommodate the growth of the company.

As part of the road improvements, Project Bluegill is seeking a new signalized full access at the intersection at Kirk Road at Douglas Road with adequate turning movements in order to accommodate the future projected traffic generated by this expansion.

KDOT has agreed to assist Project Bluegill’s private sponsor and their consultant throughout the engineering phase in order to create a set of construction plans that meets KDOT’s and IDOT’s requirements. KDOT has also agreed to be the local agency sponsor for Project Bluegill’s application for State of Illinois Economic Development Program (“EDP”) funding. Project Bluegill’s private sponsor is requesting Illinois EDP funds for up to \$2M to assist with the construction phase of this project. If approved, it is our understanding that Kane County will be required to pay 100% of the construction expenses and then IDOT will reimburse the County for up to 50% of the expenses up to a maximum amount of \$2M.

A separate agreement will be executed between Kane County and Project Bluegill’s private sponsor in advance of construction in order to establish the terms of a funding agreement. Staff anticipates the terms of this agreement will be as follows:

- Project Bluegill’s private sponsor will deposit funds in a Kane County account equivalent to 100% of the final construction cost estimate in advance of letting the construction contract.
- KDOT lets the contract, opens bids and determines the lowest qualified bidder. Should the lowest qualified bid amount be greater than final engineer’s estimate and all parties agree to still award the contract, additional funds will need to be deposited by Project Bluegill’s private sponsor into the Kane County account to fund 100% of the contract award amount.

- Once Project Bluegill's private sponsor has funded 100% of the construction contract award amount, Kane County takes the construction contract to our Transportation Committee, Executive Committee and County Board for approval.
- The construction contract is executed, notice to proceed is given to the general contractor and construction starts.
- Periodically during the execution of the contract, a pay estimate is generated by KDOT Construction staff, the contractor is paid by KDOT, KDOT invoices IDOT for reimbursement using EDP funds, payment is made to KDOT by IDOT, and then KDOT pays Project Bluegill's private sponsor as a pass-through reimbursement up to the \$2M limit of EDP funds.
- Once the project is complete and the contract closed out, any remaining funds will be returned to the Project Bluegill private sponsor.

This item is for discussion purposes. Staff is seeking Committee feedback and direction in regards to this concept and utilizing staff resources for various efforts such as drafting agreements with IDOT and agreements with the Project Bluegill private sponsor for future Committee consideration.
