Was this item passed through the appropriate committee? N/A	

#### **Summary:**

This resolution approves a standard Intergovernmental Services Agreement (which has been reviewed by the State's Attorney's Office as well as Human Resources for insurance coverage and risk management purposes) authorizing the Kane County Office of Emergency Management to loan unmanned emergency management equipment, such as generators, light towers, and similar support assets, to local governments within or partially within Kane County for planned public safety operations and community events. While the Office has historically shared equipment upon request, these arrangements have not been governed by a formal written agreement. The proposed agreement establishes consistent terms and conditions for equipment use, including borrower responsibility for transportation, fuel replacement, maintenance, insurance, and liability for loss or damage. The resolution also authorizes the Director of Emergency Management to execute individual agreements using the approved template, eliminating the need for separate County Board approval for each local government while ensuring all agreements remain in the form approved by the State's Attorney's Office.
