Summary:

Resolution to establish Kane County support of amendments to the Illinois Environmental Protection Act to improve the management of food waste by a) establishing a management hierarchy in policy, b) requiring large food waste generators to divert food waste from landfills based on size thresholds, and c) requiring state and local government purchase of compost and/or biodigestate material. The legislation is aligned with the goals of the Kane County Solid Waste Management Plan and the Kane County Climate Action Implementation Plan. There is a potential annual cost to the County of \$52,000 - \$67,000 for purchase of compost and/or biodigestate if the bill passes.
