Budget Information:

Was this item budgeted? Yes	Appropriation Amount: \$N/A
If not budgeted, explain funding source: N/A	
Was this item passed through the appropriate committee? Yes	

Summary:

Attached is an intergovernmental agreement with IDOT that will provide for federal funding towards a portion of the Kirk Road over the Union Pacific Railroad bridge replacement project. The total phase III engineering and construction is estimated to be \$43,906,955 with federal funding estimated at \$26,494,400, and local agency match is estimated at \$17,412,555.

A similar agreement was approved by the County Board in June. This version of the agreement includes administrative changes and an addendum recently provided by IDOT. The addendum adds responsibilities related to the IL 38/Kirk Road traffic signal, including State approval/inspection, State financial responsibility for signal maintenance and electrical energy, continued County performance of actual signal maintenance, and State control of signal timing. The addendum also makes Kane County responsible for administration, control, reconstruction, and maintenance of the shared use path, including indemnifying the State for path-related claims and assuming future proportionate costs if the path must be modified, relocated, or reconstructed as part of a future State improvement. In addition, upon acceptance by the State, Kane County will be responsible for jurisdiction, ownership, maintenance, and 100% of the energy costs for all roadway lighting.

Staff recommends approval.
