Summary:

IDOT allows the integration of traffic signals under state jurisdiction into KDOT's Advanced Traffic Management System (ATMS). This allows the signals to operate in conjunction with the County system. IDOT has the ability to monitor and operate the state traffic signals through a remote connection to the KDOT ATMS.

This IGA outlines IDOT and KDOT responsibilities for such integration. The agreement includes guidelines and requirements on the design and construction of the ATMS, operations of the ATMS, and maintenance of the ATMS.

Staff recommends approval.
