Summary:

In 2021, staff completed the QBS process to select Kimley Horn for Phase I/II Engineering Services for this proposed Plank Road HSIP improvement, between Romke Road and Brier Hill Road. Earlier this summer after staff oversaw construction of a similar safety project on another section of Plank Road, it was determined that it is in the County's best interest to mill and resurface the existing pavement as part of this improvement. Additional funds are requested to modify the design and obtain IDOT Phase I and Phase II approvals.

Staff recommends approval of an additional \$23,154.00 be added to the existing agreement.
